

How to mount velcro on printed film for Lumaline Advertiser.

The adhesive velcro (loop) is mounted on the back of the print, to the side-edges, 15mm from top and bottom. Width of velcro: 8-20mm.

Media:

You can use any kind of back-lit film, duratrans, thin paper or any kind of translucent material for printing.

We recommend these materials:

Print on back-lit film - UV: Océ IJM359

Print on back-lit film - Solvent: Océ IJM 639

For mirrored printing on clear film we recommend:

Print on clear film - UV: HiFi PMX729
